Goal

The vision of The University of Texas MD Anderson Cancer Center is to enhance the excellence, value, safety and efficiency of our patient care. The goal of this conference is to review the current indications for surgical treatment and adjuvant therapy for a number of hepatobiliary topics. These include indications for minimally invasive hepatobiliary surgery, surgical and medical management of parasitic liver disease, the role of ablative technologies in hepatobiliary surgery for malignancy, and optimal multi-modality treatment strategies for hepatocellular carcinoma. By merging the expertise of hepatobiliary surgeons in both North and South America, the conference is aimed at addressing the identified knowledge gaps for both groups. At the conclusion of the conference, attendees should leave with a higher level of understanding and competence in the diagnosis and management of these disorders.

Educational Objectives

At the conclusion of this educational activity, participants should be able to

- Appropriately apply minimally invasive hepatobiliary surgical techniques (*Knowledge, Competence, and Performance*);
- Appropriately select and sequence the multiple treatment modalities available for the management of primary and metastatic hepatobiliary malignancies (*Knowledge, Competence, and Performance*);
- Appropriately implement the most up to date strategies in the management of cystic liver disease, (*Knowledge, Competence, Performance and Patient Outcomes*).

Target Audience

This conference should be of interest to practicing physicians in the fields of benign and malignant hepatobiliary care including hepatobiliary surgical oncologists, liver transplant surgeons, medical oncologists, infectious disease specialists, gastroenterologists, hepatologists, and diagnostic radiologists.

Educational Methods

- Lecture/Didactic
- Case Study
- Panel Discussions
- Question and Answer Sessions

Evaluation

A course evaluation form will provide participants with the opportunity to comment on the value of the program content to their practice decisions, performance improvement activities, or possible impact on patient health status. Participants will also have the opportunity to comment on any perceived commercial bias in the presentations as well as to identify future educational topics.

Accreditation/Credit Designation

This activity has been planned and implemented in accordance with the Essential Areas and Policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of The University of Texas MD Anderson Cancer Center and Americas Hepato Pancreato Biliary Association and Clinica Alemana. The University of Texas MD Anderson Cancer Center is accredited by the ACCME to provide continuing medical education for physicians.

The University of Texas MD Anderson Cancer Center designates this live activity for a maximum of 9.25 *AMA PRA Category 1 Credits*[™]. Physicians should claim only credit commensurate with the extent of their participation in the activity.

CME Certificates and Attendance Verification Certificates

Certificates awarding *AMA PRA Category 1 Credit*[™] or certificates documenting attendance will be distributed to participants as they depart the conference. To obtain a CME certificate, physicians must submit a completed evaluation questionnaire and a CME Verification Form. Upon request, a record of attendance (certificate) will be provided on-site to other health care professionals for requesting credits in accordance with state nursing boards, specialty societies, or other professional associations.
